

LOCAL SERVICE REVENUE REPORTABLE TO THE KUSF

All intrastate retail service revenue similar to those listed and described below should be reported to the KUSF, regardless of technology (wireline, wireless, VoIP, etc). FCC Uniform System of Accounts, Part 32, accounts listed below provide guidance for reporting revenue. A Provider may use different account codes or names, however, comparable revenue must be reported.

Report the intrastate portion of all revenue earned from subscribers, whether recovered from the subscriber or on behalf of the subscriber from any source (i.e. company-sponsored low-income discount, Kansas Lifeline Service Program, Federal Schools & Libraries & Rural Health Care Funds, etc.), **except revenue reimbursed by the Federal High-Cost and Lifeline Programs.**

K.S.A. 66-2008(a) requires companies to contribute "based upon the provider's intrastate telecommunications services net retail revenues on an equitable and non-discriminatory basis. The commission shall not require any provider to contribute to the KUSF under a different contribution methodology than such provider uses for purposes of the federal universal service fund, including for bundled offerings." Thus, a Company may report services revenues for KUSF contribution purposes in a manner consistent with reporting for

For KUSF reporting purposes, "net retail revenue" is defined as "the net intrastate retail telecommunications service revenues of a telecommunications carrier, telecommunications public utility, wireless telecommunications service provider or interconnected VoIP service provider after any adjustments for uncollectibles and discounts consistent with the carrier's contribution methodology for federal USF reporting purposes."

A Provider marketing assessable services as free must substantiate, through a usage study, traffic study, or similar method, that the assessable service was not used by a subscriber. [Order, Docket No. 14-GIMT-105-GIT, Oct. 20, 2015]
