

VPS Consulting Memo

Broadband Data Collection Fabric Available

PROVIDER ACTION REQUIRED.

The Federal Communications Commission (FCC) announced that the June 2023 version of the Broadband Data Collection (BDC) Fabric is [available](#).

Provider Action Required

Service providers are encouraged to access their BDC Fabric (Fabric) data and to begin their BDC Filing early. Bulk Fabric Challenges submitted on or after June 30, 2023, must be submitted against the June 2023 version of the Fabric. All Bulk Fabric Challenges submitted in advance of September 8, 2023, are most likely to be reviewed and adjudicated for the next iteration of the Fabric (December 2023).

Date	Production Fabric Important Notes
September 1, 2023	Due date for the next biannual BDC Filing. <ul style="list-style-type: none">▪ The June 2023 Fabric will be utilized to complete the Filing.▪ Report Broadband Serviceable Locations (BSLs) that can be served within 10 days as of June 30, 2023.▪ Report subscription information for all existing subscribers as of June 30, 2023.
September 8, 2023	Bulk Fabric Challenges submitted in advance of this date are most likely to be reviewed and adjudicated in time to be accounted for the next iteration of the Fabric (December 2023).

Additional Information

Vantage Point recommends accessing your Fabric immediately to eliminate any delay in completing the Filing.
